

## PBL Update

As discussed in last fortnight's newsletter, this term we have introduced new playground Zones for students. In each zone we have allocated coloured tubs, matching our zone colours that have a range of area specific equipment. As part of this initiative we have brought a range of new play equipment, games and resources for students to use. This equipment is sanitised after each play session so that it is fresh and clean for the next group of students.

This new equipment has informed our expectation focus for the fortnight:

I am Responsible by using the new equipment correctly and putting equipment away in the right place.

Student learning has focused around the following I statements:

- ★ I use the equipment safely.
- ★ I play games with other students.
- ★ I follow game rules.
- ★ I put the equipment in the tub.
- ★ I used the equipment in the correct zone.
- ★ I wash my hands at the end of recess and lunch.

Students and staff are loving our new playground zones and it has really put the FUN into playtime! Our staff are so proud of the responsibility students have shown in each zone and by using the equipment correctly. Keep up the great work RCPS!
